JANASEVAKA

Brief Description:

- JanaSevaka initiative was launched by Government of Karnataka to provide Doorstep Delivery
 of Government Services to citizens. The program currently offers 79 G2C services spanning 9
 departments.
- This programme is implemented by the Directorate of Electronic Delivery of Citizen Services (EDCS), Government of Karnataka.
- Citizens can book a slot either by calling the Call Center (080-44554455) or by using web-based application (www.janasevaka.karnataka.gov.in) or through mobile app(Mobile One). Janasevaka, equipped with all the required hardware, visits the citizen premises in the specified time to raise an application. Janasevaka is integrated with SAKALA (guarantee of services to citizens within the stipulated time limit) to ensure timely disposal of the applications. Once approved, Janasevaka visits the citizen premises to deliver the service/documents.
- Janasevaka programme was launched across Bengaluru Urban district (198 Wards, BBMP Limits) by Hon'ble Chief Minister of Karnataka on November 1, 2021. Currently 79 services from 9 departments can be availed under this programme. More than 186000 applications have been raised through Janasevaka in 27 assembly constituencies of Bangalore.
- The pilot was put on holdduring the first wave of Covid-19 pandemic. The project resumed on 18January 2021 with changed strategy adopting all Covid-19 safety protocols. Janasevakas catered to the needs of citizens very effectively during the second wave and continue to do the same.

Key Program Details:

- Service charge: Rs 115 + Departmental Service Charge
- Slots for service delivery can be booked as per applicant's convenient time between 8AM to 8PM on all days.
- Feedback from citizens post-delivery of each service is obtained through a dedicated call
 center which has led to better monitoring to avoid overcharging, misbehavior, and delay in
 visits.

Benefits to the citizens:

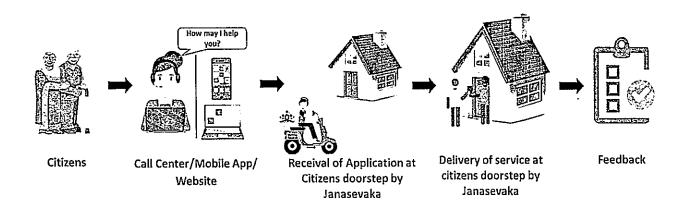

- No need to spend time and money on traveling to Government offices or citizen service centers
 for availing services. This is especially helpful for senior citizens, physically challenged persons
 etc.
- Working population need not lose opportunity cost in the form of loss of livelihood
- No need to wait in long queues to avail services
- No more dependency on middlemen
- Helps in avoiding visits to crowded government offices to avail services (proved to be a better service delivery channel amidst Covid-19 pandemic)
